MAGNETICALLY-RECEPTIVE FERROUS FILMS WITH WHITEBOARD SURFACE

These films offer a ready to use 2-in-1-solution: they combine the magnetically-receptive function of our flexible ASLAN FerroSoft films with the easy write and wipe function of our whiteboard films. Thus, you can create a high-quality, multi-functional communication surfaces in just a single pass.

Available versions:

Glossy, magnetically-receptive whiteboard film, white

FerroSoft Whiteboard ASLAN FF 550

Matt, magnetically-receptive whiteboard film- suitable as a projection screen

FerroSoft Whiteboard matt ASLAN FF 490

MAGNETICALLY-RECEPTIVE FERROUS FILM WITH BLACKBOARD FINISH

Self-adhesive ferrous film with a matt blackboard finish transforms any smooth surface into a magnetically-receptive blackboard.

Can be written on with liquid chalk pens and chalk any number of times without leaving shadows or ghosting.

GLOSSY PREMIUM WHITEBOARD FILMS

Benefits of ASLAN Dryapply technology:

- Ideal combination of adhesive, backing and structural characteristics
- Extremely fine air release channels allow easy and bubble-free dry application
- Can be easily applied onto large surfaces

HIGH-QUALITY WHITEBOARD FILMS FOR EASY APPLICATION

These films are extremely scratch-resistant and can be written on any number of times with whiteboard markers – with no trace of ghosting or shadows.

Available versions:

Glossy whiteboard film for dry application in white
Whiteboard Dryapply ASLAN WBL 995

PVC free whiteboard film in white
Whiteboard PP Dryapply ASLAN WBL 998

HIGH-QUALITY SCRATCH-RESISTANT WHITEBOARD FILMS

These films can be applied onto any smooth surface, such as doors or walls. Writings with whiteboard markers can be easily wiped off dryly using a soft cloth. Even

HIGH-QUALITY BLACKBOARD FILMS IN FIVE DIFFERENT VERSIONS

Our high-quality self-adhesive blackboard films are the ideal alternative to heavy chalkboards or blackboard paint. They can be cut into any imaginable shape or size and can be applied to smooth surfaces quickly and cleanly.

Writings with chalk or liquid chalk pens (on the ASLAN BB 910 and ASLAN BBL 920) can be wiped off with a damp cloth and does not leave any ghosting or shadows – this makes them the ideal medium for

MAGNETICALLY-RECEPTIVE FERROUS FILM

This self-adhesive ferrous film makes any smooth surface suitable for placing magnets. It can be cut easily into any imaginable shape or size and can be combined just as easily with other self-adhesive ASLAN films to create a multi-functional whiteboard, blackboard

Ferrous film, anthracite coloured
FerroSoft ASLAN FF 410

PRINTABLE FERROUS FILM, MAGNETICALLY-RECEPTIVE

With this white, matt ferrous film any surface becomes suitable for placing magnets. It is digitally printable, allowing you to create custom-designed magnet boards.

In combination with our transparent chalkboard and whiteboard films it can additionally be written on with chalk or whiteboard markers.

solution

**Glass decoration film
with whiteboard function**

GLASS DECORATION FILM WITH WRITABLE SURFACE

Create presentation areas by turning just about any transparent surface into a whiteboard! With this ASLAN glass decoration film you can create classy, decorative privacy screens with a whiteboard function – in any desired shape and size. Thanks to the ASLAN Dryapply technology, the film can be dry-applied easily and can be written on with whiteboard markers any

SELF-ADHESIVE REAR PROJECTION FILMS IN TWO DIFFERENT VERSIONS

ASLAN rear projection films are the ideal medium for striking, high-impact presentations of videos, live broadcasts and images. Applied onto a rigid, transparent surface, they form a projection screen that can be operated by using standard projectors as well as interactive projection systems.

Both, the translucent and the transparent alternative, are characterised by their high level reproduction quality, strong contrasts and high colour brilliance even in bright environments with applications behind glass.

The transparent version provides a clear view: backgrounds, like objects exhibited in a shop window, can be incorporated creatively into multimedia design concepts.

Available versions:

MagneTack MT 400

MAGNETIC SELF-ADHESIVE FILM

ASLAN's magnetic self-adhesive film opens up new opportunities for creating retail spaces, points of purchase/sale or exhibition stands. Applied to flat and smooth surfaces, MagneTack ASLAN MT 400 is the perfect base to place ASLAN's printable ferrous papers for your marketing messages or special offers. Due to the film's high barium and strontium ferrite level, up to three layers of ASLAN ferrous papers can mount safely to the surface without curling or sliding. Furthermore, the film is easy to apply since its flexibility and thickness of 400 µm allow easy handling.

Magnet film, anthracite
MagneTack ASLAN MT 400

PRINTABLE FERROUS PAPER, MAGNETICALLY-RECEPTIVE

Ferrous papers are foolproof and bubble-free to apply to the magnetic film MagneTack ASLAN MT 400. The white surface is printable with common printing systems. Applied and repositioned within seconds, ferrous papers are the best way to present your changing marketing message, special offers etc. to your customers. Up to three layers of ferrous papers will stick safely to ASLAN's magnetic film and they are fast and easy to change.
